Product Description

Micro Electric Sanitation Vehicle Cleaning Special Electric Sanitation Vehicle SKBJ3000-A

functional performance:

The vehicle design is beautiful and generous, and a mobile garbage bucket can be placed in the rear box of the car, which is easy to use. The dustbin is designed with a lid so that garbage can be collected in a closed environment. An independent toolbox is provided in front of the box for placing cleaning tools. The vehicle is small and the wheelbase is short. Suitable for use in alleys and sidewalks. Go with stop, convenient and flexible, only one person can operate, can be used for single road cleaning, peel and paper recycling, pedestrian lane garbage cleaning and tour cleaning.

working area:

Pedestrian roads, commercial streets, urban streets, residential areas, stations, squares, airports, factories, schools, hospitals, parks and other sections of garbage collection and cleaning.
