

Four Passengers Electric Patrol Car 700KG Lithium Battery

Our Product Introduction

for more products please visit us on electriccleaningvehicle.com

Basic Information

- Place of Origin: China
- Brand Name: Bochi
- Model Number: Electric single-row pickup truck SKXL5220-A
- Minimum Order Quantity: 3 sets
- Price: Further communication based on product configuration and parameters
- Packaging Details: wooden box packaging
- Delivery Time: 15-30 days
- Payment Terms: D/P, T/T
- Supply Ability: 3000 sets/months

Product Specification

- Rated Number Of Passengers (people): 4
- Full Load Total Weight (kg): 1050
- Overall Dimensions (mm) (length × Width × Height): 3850×1400×1980
- Wheelbase (mm): 2100
- Wheelbase (front/rear) Mm: 1120/1140
- Motor Rated Power (kw/v): 72V/5KW
- Battery Capacity (Ah): 72V150AH Lithium Battery
- Charger: 72V30A
- Continued Mileage: 80-100km
- Each Charging Time (h): 8-10 Hours (discharge Rate 80%)
- Highlight: **Four Passengers patrol vehicles, patrol vehicles Lithium Battery, 700KG patrol cars**

Product Description

Patrol vehicle supplier SKXL5220-A

Performance introduction:

The whole vehicle adopts the sightseeing car front, made of yacht fiberglass, with smooth lines, novel and beautiful appearance.

Front and rear hydraulic braking, better and more stable.

The steering system adopts electronic power assist EPS, which makes the steering flexible and labor-saving.

The chassis structure adopts mini car chassis technology, which has good stability and safety.

Equipped with high-power speakers and megaphones, using mature and reliable technology and high-quality accessories, it has excellent performance, is safe and reliable, is flexible and convenient, and greatly improves law enforcement efficiency.

Using a potentiometer induction accelerator, the vehicle control system has safety functions such as anti-electromagnetic interference, anti-speeding, start delay and reverse deceleration.

Related configurations

Front tempered double-layer laminated glass + wiper; roof double-sided fiberglass; rust-proof body structure;

Adopts MacPherson independent suspension braking system and hydraulic braking system in the form of four-wheel vehicles and independent parking brake; anti-slip floor;

Equipped with voltmeter, ammeter, turn indicator light, direction switch, hazard alarm switch and combination switch;

Equipped with rearview mirror, police lights, headlights, front and rear turn signals, combined rear tail lights, electric horn and reversing buzzer;

Configured with fully electronically controlled digital FM radio, supporting U disk SD/MMC card.

Colors can be spray-painted according to customer requirements

Rated number of passengers (people)	4
Loading capacity (kg)	700
Full load total weight (kg)	1050
Overall dimensions (mm) (length × width × height)	3850×1400×1980
Wheelbase (mm)	2100
Wheelbase (front/rear) mm	1120/1140
Electronic control H1DN	72v/350A
Motor rated power (kw/v)	72V/5KW
Battery capacity (Ah)	72V150AH lithium battery
charger	72V30A
Each charging time (h)	8-10 hours (discharge rate 80%)
Continued mileage	80-100
Braking distance (v=20km/h)	≤4m
Maximum speed (km/h)	30
Minimum turning radius (m)	4
Minimum ground clearance (mm)	140
Maximum grade	30%
Parking ability	20%
Noise outside the car (dB)	≤68
canopy	Double-sided fiberglass
seat	Integrated sponge-covered leather, polyurethane foam seat armrests
tire	225/55B12 tires
floor	Anti-slip aluminum plate, side guard
instrument panel	Integrated instrument panel, digital combination instrument, steering wheel, combination switch, direction switch, hazard alarm switch
rearview mirror	Left and right exterior mirrors
lights and signals	12V lighting system, headlights, front and rear turn signals, combined rear tail lights (night lights + brake lights), electric horn and reversing buzzer
Audio	Radio, supports U disk SD/MMC card, speakers (2 pieces)
Directional system	Electronic assist EPS system
Other configurations	Equipped with siren, police lights, trunk, megaphone
