Product Description

New Energy Electric Patrol Cleaning Vehicle New Energy Sanitation Vehicle SKBJ4600-A

Features:

There is a garbage opening on the top of the box. When the garbage can is full, the rear tail cover can be opened to take out the garbage can. There is a small trash can in the front section of the vehicle cab, which is used for transferring garbage. When the small trash can is full, it is taken out and transferred to the 120L/240L standard trash can in the rear box. The vehicle has small wheelbase and wheelbase, small turning radius, and strong operability. It is suitable for cleaning narrow streets or sidewalks.

working area:

Garbage collection, transfer and cleaning inspections in commercial streets, urban streets, communities, stations, schools, hospitals and other sections.
