

New Energy Electric Three Wheeled Cleaning Car Garbage Transport Truck

Our Product Introduction

for more products please visit us on electriccleaningvehicle.com

Basic Information

- Place of Origin: China
- Brand Name: Bochi
- Model Number: New energy electric three-wheeled 4-barrel vehicle SKBY3600-A
- Minimum Order Quantity: 3 sets
- Price: Further communication based on product configuration and parameters
- Packaging Details: Steel structure packing rack
- Delivery Time: 15-30 days
- Payment Terms: D/P, T/T
- Supply Ability: 3000 sets/months

Product Specification

- Rated Passenger Capacity: 1
- Overall Dimensions: 3380*1380*1280
- Maximum Load: 800kg
- Top Speed: 30km/h
- Cruising Range: 60km
- Motor Power: 60V 1200W
- Battery Capacity: 60V45AH
- Highlight: 1200W Electric Three Wheeled Cleaning Car, 800kg Electric Three Wheeled Cleaning Car, 30km/h garbage transport truck

Product Description

New Energy Electric Three Wheeled 4 Bucket Truck Garbage Transport Truck Garbage Bucket Truck SKBY3600-A

Features:

This model is an electric three-wheeled four-bucket hanging bucket truck with a beautiful design. It adopts a tail plate type bucket hanging device, which is solid, solid and durable. Four 240L trash cans can be loaded and unloaded at the same time in the rear compartment, and a full load can pull 800kg. The rear box tail plate is divided into four parts and opens on the left and right sides. The rear tailgate can be opened separately. The tailgate is cleverly designed and equipped with a rubber pad on the back to protect the tailgate during loading. The vehicle has ultra-large capacity and fast transportation speed. It uses a high-power 60V1200W brushless motor and has strong climbing ability.

working area:

Garbage collection and cleaning on sidewalks, commercial streets, urban streets, residential areas, stations, squares, airports, factories, schools, hospitals, parks, etc.

	Project content	240L four-barrel truck		
Technical parameters	Overall dimensions (mm)	3550*1550*1070		
	Rated passenger capacity (person)	1		
	Maximum speed (km/h)	20km/h		
	Minimum turning radius (m)	≤3		
	Maximum gradeability (no load)	25%		
	Maximum braking distance (m)	≤4		
	Driving mileage (km)	≥60		
	Minimum ground clearance (mm)	13.5	Wheelbase (mm)	2330
Electrical system	Unladen vehicle weight (kg)	200	Wheelbase (mm)	930
	battery	60V45AH battery		
	charger	60V4.2A, Fully automatic intelligent charger, short charging time and small size		
	controller	60V1200W 18 tube controller		
move force Hold control	Traction motor	Differential dual drive 60V1200W		
	Powertrain	Rear axle dual drive		
	switch	Start switch, light combination switch, front and rear reversing switch		
	tire	Front 3.75-12, rear 3.75-12		
	Foot brake	Pull rod braking, sensitive braking		
	handbrake	Equipped with slope parking function, no worries when parking on slopes		
Appearance	Cleaning bucket loading and unloading	Lower the side or rear door iron plates to load and unload trash cans		
	paint	The entire vehicle uses automotive-grade ordinary paint, computerized paint mixing, and professional spraying equipment.		
	seat	Advanced simulated leather fabric + high rebound PU		
	lights and signals	Combination headlights, turn signals, combination rear lights, electric horn and reversing buzzer
