

Multi Function High Pressure Cleaning Electric Sanitation Car New Energy

Our Product Introduction

for more products please visit us on electriccleaningvehicle.com

Basic Information

- Place of Origin: China
- Brand Name: Bochi
- Model Number: SKLY5160-A
- Minimum Order Quantity: 3 sets
- Price: Further negotiation based on product configuration and requirements
- Packaging Details: Iron frame + steel structure box packaging
- Delivery Time: 15-30days
- Payment Terms: D/P, T/T
- Supply Ability: 3000 sets/month

Product Specification

- Highlight: Multi Function electric sanitation car, electric sanitation car New Energy, New Energy electric sanitation vehicle

Product Description

Electric multi-function high-pressure cleaning car sanitation car New energy electric cleaning car SKLY5160-A

Performance profile and product advantages:

1. This car is widely used for the ground cleaning of public places such as squares, roads, streets, and so on. It adopts high pressure washing method to thoroughly clean the ground.
2. In order to improve the working efficiency, increase the working time of the machine, increase the 45-liter capacity of the fuel tank to meet the needs of different operations.
3. Install two flushing heads in the front washing mechanism and adjust the flushing Angle up and down to a maximum of 80°. Can be convenient for guardrail, road stone washing. The nozzle is set up with left and right automatic swing function, and the swing range can be adjusted arbitrarily within 0-90° to meet the needs of different road conditions. In addition, the car is equipped with a variety of Angle nozzle, which can be selected according to different working environments.
4. The whole vehicle body laser cold plate material, a molding, smooth lines, strong corrosion resistance, novel and beautiful.
5. With anti-electromagnetic interference, anti-speed, start delay and reverse deceleration and other safety functions.
6. The front windshield adopts double curved automotive laminated glass, which is beautiful and easy to wear.
7. This model is equipped with a "quick battery pack change mechanism", which can easily replace the whole vehicle battery at any time.
8. Set up a large hidden toolbox. The other vehicle can be equipped with closed cab doors and removable Windows.
9. At present, the vehicle has been widely used in the washing, cleaning and cleaning operations of urban management, environmental sanitation, municipal affairs, gardens, hospitals, large squares, enterprises and other units in cities, counties and towns throughout the country.

main technical parameters	
passenger carrying capacity:	2 person
Dimensions: length × width × height:	4360x1560x2010mm
complete vehicle shipping mass:	1450kg
water tank capacity:	1000L
distance between shafts:	1900mm
front gauge:	1220mm
track rear:	1220mm
minimum ground clearance:	160mm
Maximum speed (full load) :	21km/h
braking length:	≤4m
minimum turning radius:	≤5m
Maximum gradient (full load) :	15%
Motor rated power:	48V/6.5KW
battery:	200AH
Lighting voltage and power:	12V/110W
charging time:	8-10hours
driving range:	≥80km
engine:	Jialing Honda
Model:	PE-2565HWCOM
Type of internal combustion engine:	HONDA13HP GX390
High pressure pump type:	AR/Three-plunger ceramic high pressure water pump
maximum working pressure:	160-280kg
maximum flow:	15-30L /minute
