

Three Wheel Cleaning Electric Sanitation Car New Energy

Our Product Introduction

for more products please visit us on electriccleaningvehicle.com

Basic Information

- Place of Origin: China
- Brand Name: Bochi
- Model Number: SKCX3160-A
- Minimum Order Quantity: 3 sets
- Price: Further negotiation based on product configuration and requirements
- Packaging Details: Iron frame + steel structure box packaging
- Delivery Time: 15-30days
- Payment Terms: D/P, T/T
- Supply Ability: 3000 sets/month

Product Specification

- Highlight: Three Wheel electric sanitation car,
3 Wheel electric sanitation car,
electric sanitation vehicle New Energy

Product Description

Electric three-wheel cleaning car sanitation cleaning car New energy electric cleaning car SKCX3160-A

Product performance and features:

1. The vehicle design is exquisite, small size, short wheelbase, flexible maneuverability and economical application.
 2. Two sets of adjustable high-pressure water gun nozzle are designed on both sides of the front section of the body, and the back end is equipped with 15-meter high-pressure water pipe and water gun, which can easily clean objects within 20 meters, effectively improve working time and efficiency, and meet different working environments.
 - 3, the main beam of the body adopts the chassis of the heavy-duty tricycle, the stainless steel shell is durable, and the storage shelf is convenient for the use of other working tools.
 - 4, the water tank integral rotoplastic thickening homemade, leak-proof good cold resistance, etc., the brake system adopts the drum brake device, the vehicle is more safe and reliable
 - 5, the high pressure washing system adopts: Honda gasoline 390 four-stroke gasoline engine + imported high pressure water pump, the water pressure can reach more than 200 mpa, while equipped with a variety of Angle nozzle (4 kinds: 0°, 15°, 25°, 45°), convenient for all kinds of washing.
- Suitable for urban streets, stations, airports, docks, factories, schools, hospitals, squares, residential alleys, sidewalks and other sanitation needs. Go with stop, convenient and flexible.

basic parameter	Rated occupant	1人
	Length * width * height	3000*1200*1550(mm)
	Max.Range Per Charge	≤80 km
	maximum speed	15 km/h
	minimum turning radius	5 m
	maximum gradeability	≥15%
Electric gas system	charging time	6-8 hours
	Electric machine	1500W High power brushless motor
	Electric control	1500W Brushless controller
	Electric cell	60v45AH maintenance-free battery
	recharger	60V Shift type large charger
	high pressure water pump	Honda engine, imported high pressure water pump
Bottom disk system	lighting system	LED lights, left and right turn signals, brake lights, running lights, instruments, electric horns, etc
	kingpost	The girder is made of one-time bending and welding
	suspension	Front suspension: coarse internal and external spring retractable shock absorption, rear suspension: non-independent suspension (thickened steel plate type)
	Rear axle	One-piece differential rear axle.
	tyre	4.00-12 (front, rear wheels)
	braking	Foot oil brake drum rear wheel brake + manual mechanical parking brake
body	instruments panel	Latest mechanical meter, power lock
	Coil	Coil with automatic return spring, can automatically recover high pressure water pipe, high pressure water pipe: 15 meters
	Case body	Laser sheet metal + integrated rotoplastic touch.
	Water tank	680L
