

6 Passenger Electric Patrol Vehicle Electric Security Patrol Vehicles

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bochi
- Model Number: SKXL5260-A
- Minimum Order Quantity: 3 sets
- Price: Further communication based on product configuration and parameters
- Packaging Details: Steel frame + color steel packaging
- Delivery Time: 15-30 days
- Payment Terms: D/P, T/T
- Supply Ability: 3000 sets/months

Product Specification

- Rated Number Of Passengers (people): 6
- Overall Dimensions (mm) (length × Width × Height): 3650*1400*1810mm
- Maximum Load: 900kg
- Max Speed: ≥30km/h
- Mileage: ≥80Km
- Motor Power: 48V/5KW
- Battery Capacity: 48V/200AH
- Highlight: 6 Passengers Electric Patrol Vehicle, 5KW Electric Patrol Vehicle, 48V electric security patrol vehicles

Product Description

Patrol vehicle supplier SKXL5260-A

Performance Overview:

The whole vehicle adopts sightseeing car front, yacht fiberglass material, smooth lines, novel and beautiful. front and rear hydraulic brake, better effect, more stable.

The steering direction system adopts electronic power EPS, which is flexible and labor-saving.

Chassis structure adopts minicar chassis technology, with good stability and safety.

equipped with high-power speakers and loudspeakers, the use of mature and reliable technology and high-quality accessories, excellent performance, safe, reliable, flexible and convenient, greatly improve the efficiency of law enforcement.

Using potentiometer induction accelerator, the vehicle control system has the safety functions of anti-electromagnetic interference, anti-overspeed, start delay and reverse deceleration.

Related configuration

front block tempered double laminated glass + windshield wiper; Top cover double glazed glass steel; Rust-proof body structure;

with McPherson independent suspension brake system and four-wheel vehicle form of hydraulic brake system and independent parking brake; Non-slip floor;

equipped with voltmeter, ammeter, turn indicator light, direction switch, danger alarm switch and combination switch;

with rearview mirror, alarm light, headlight, front and rear turn signal, combined rear tail light, electric horn and reverse buzzer;

Fully equipped with electronic control digital FM radio, support U disk SD/MMC card.

Colors can be painted on request

Electric System	electronic control	48V350A
	battery	48V200AH
	electrical machinery	48v5KW
	charging time	8-10 hours
	battery charger	Computer intelligent control
Body configuration	seat	Adjustable seat with integral sponge wrapped in leather
	car body	Steel frame + fiberglass shell
	instrumentation console	LCD multi-function instrument, polyurethane steering wheel, forward and backward switch
	Car frame	Mini car chassis optimization, high strength steel structural parts
	rearview mirror	One manual rear view mirror on each side
	acoustics	LED alarm light, speaker, multi-function player
	Lights and signals	Headlights, front and rear turn signals, combined rear taillights, electric horn and reverse buzzer
	drive system	Stepless speed control system
Bottom plate	steering system	Double ball head double output rack and pinion steering gear
	Front axle and suspension	Independent suspension, coil spring + cylinder type hydraulic shock absorption
	Rear axle and suspension	Integral rear axle, leaf spring suspension + cylinder type hydraulic shock absorption
	brake system	Front and rear drum double circuit hydraulic brake, parking brake device
	tyre	225/55/12 vacuum tire
	Rated occupant	6 person
technical specification	Dimensions Length * width * height	3650×1400×1810mm
	unloaded wt	750kg
	Vehicle load	900kg
	Front and rear wheel bases	1105/1150mm
	wheel base	2950mm
	minimum ground clearance	140mm
	Initial speed 20km/h braking distance	≤4.0m
	Charge input voltage	220v/
	maximum travelling speed	≥30km/h
	Driving range (full load)	≥80Km

Maximum gradient (full load)	≤20%
minimum turning radius	≤4.3m
