Basic Information

Product Specification

- Power Source: Electric
- Box Volume: 240L
- Maximum Load: 800kg
- Type: Three-wheeled
- Charger: 48-60V/20-32AH
- Battery: 48V/20/32AH
- Highlight:
 - 800kg Maximum Load Electric Garbage Tricycle
 - Ample Storage Capacity Electric Garbage Tricycle
 - Spacious Box Volume Electric Garbage Tricycle

Product Description

Product Description:

The Electric Three-Wheeled Cleaning Car is a versatile and efficient solution for maintaining cleanliness in various environments. This innovative product combines the convenience of a three-wheeled design with the power of electric technology to create a reliable cleaning cart suitable for a wide range of applications.

Featuring a spacious box volume of 240L, this Three-Wheeled Electric Cleaning Cart provides ample storage capacity for collecting and transporting garbage, making it an ideal choice for both indoor and outdoor cleaning tasks. The large box volume ensures that users can efficiently manage waste disposal without the need for frequent emptying, enhancing productivity and convenience.

Equipped with a powerful 48V battery with a capacity of either 20AH or 32AH, this Electric Three-Wheeled Garbage Collector offers long-lasting performance to support extended cleaning operations. The high-capacity battery ensures reliable power supply to the cart, enabling users to tackle cleaning tasks with minimal interruptions. Whether used in residential areas, commercial spaces, or public facilities, this cleaning cart delivers consistent and efficient performance.

Designed for ease of use and maneuverability, the Three-Wheeled Electric Cleaning Cart features a user-friendly interface and intuitive controls that enable operators to navigate various environments with precision and control. The three-wheeled design enhances stability and agility, allowing the cart to maneuver through tight spaces and around obstacles with ease. This makes the cleaning cart suitable for use in crowded areas where larger cleaning equipment may struggle to access.

While the color of this Electric Three-Wheeled Cleaning Car is unspecified, its sleek and modern design complements any environment, adding a touch of professionalism to the cleaning process. Whether used in industrial settings, residential complexes, or public spaces, this cleaning cart presents a clean and polished appearance that reflects a commitment to cleanliness and hygiene.

With an unspecified battery type and capacity, this Three-Wheeled Electric Cleaning Cart offers versatility and adaptability to meet various cleaning requirements. The unspecified battery type ensures compatibility with different power sources, while the unspecified capacity provides flexibility to adjust the cart's power output based on specific cleaning needs. This adaptability makes the cleaning cart a practical and efficient solution for a wide range of cleaning applications.

In summary, the Electric Three-Wheeled Cleaning Car is a reliable and versatile cleaning solution that combines the benefits of electric technology with a three-wheeled design. With its spacious box volume, powerful battery, user-friendly controls, and adaptable features, this cleaning cart is an ideal choice for maintaining cleanliness in diverse environments. Whether used in commercial facilities, residential areas, or public spaces, the Three-Wheeled Electric Cleaning Cart delivers efficiency, convenience, and performance to support effective waste management and sanitation.

Features:

Product Name: Electric Three-Wheeled Cleaning Car

Box Volume: 240L

Color: Unspecified

Maximum Load: 800kg

Motor Power: 48V 800W

Battery: 48V/ 20/32AH

Technical Parameters:

Battery Type	Unspecified
Charger	48-60V/20-32AH
Maximum Load Capacity	Unspecified
Battery	48V/20/32AH
Maximum Load	800kg
Weight	Unspecified
Rated Passenger Capacity	1
Power Source	Electric
Cleaning Method	Unspecified
Box Volume	240L

Applications:

The Electric Three Wheeled Cleaning Car, also known as the Electric Three-wheel Scrubber Cart, is a versatile and efficient solution for various cleaning tasks in a wide range of environments. With its innovative design and powerful electric motor, this Three-wheeled Electric Cleaning Cart is suitable for multiple application occasions and scenarios.

One of the primary uses of the Electric Three Wheeled Cleaning Car is in commercial and industrial settings. Its maneuverability and compact size make it ideal for cleaning narrow aisles, hallways, and other tight spaces in factories, warehouses, and production facilities. The Electric Three-wheel Scrubber Cart can easily navigate through crowded areas, collecting debris and keeping the space clean and organized.

Moreover, this Electric Three-wheeled Garbage Collector is also perfect for outdoor cleaning tasks. Whether it's maintaining parks, sidewalks, or parking lots, the Three-wheeled Electric Cleaning Cart can effectively sweep, mop, and collect trash, making it a valuable

asset for municipalities and landscaping companies.

Another key application scenario for the Electric Three Wheeled Cleaning Car is in educational institutions such as schools and universities. The quiet operation of this Electric Three-wheel Scrubber Cart ensures minimal disruption to students and staff while providing a clean and hygienic environment for learning.

Additionally, the Electric Three-wheeled Garbage Collector can be used in residential complexes, shopping malls, and event venues to efficiently manage waste and maintain cleanliness. Its eco-friendly electric power source and durable construction make it a sustainable choice for various cleaning needs.

Whether it's indoor or outdoor cleaning, commercial or residential spaces, the Electric Three Wheeled Cleaning Car proves to be a reliable and efficient solution. Its 48V/ 20/32AH battery ensures long-lasting performance, while the unspecified weight and model make it versatile for different tasks. The color options available further allow customization to suit specific preferences and branding requirements.
