Product Description

Micro Electric Sanitation Vehicle SKBJ3000-A: Functional Profile

Designed for streamlined urban cleaning operations, this vehicle features an aesthetically integrated mobile garbage container within its rear compartment, enabling efficient waste containment. The integrated dustbin incorporates a sealed lid system ensuring enclosed waste collection throughout transit. A dedicated front-mounted toolbox provides organized storage for cleaning implements, optimizing workflow efficiency.

Characterized by a compact wheelbase and agile maneuverability, the unit excels in confined urban environments including narrow alleys and pedestrian pathways. Its stop-and-go operational flexibility allows single-operator functionality, supporting diverse tasks including:

- Street-level debris collection
- Paper and packaging recycling
- Sidewalk sanitation maintenance
- Continuous mobile patrol cleaning

Operational Deployment Scope

Deployed across comprehensive urban networks and public spaces including:

Pedestrian thoroughfares • Commercial districts • Municipal roadways • Residential communities • Transit hubs (stations/airports) • Public squares • Industrial complexes • Educational campuses • Healthcare facilities • Recreational parks
