Product Description

Product Benefits

This shock absorber effectively absorbs leaf spring movement while maintaining consistent tire-to-road contact pressure. It optimizes vehicle load distribution to promote even tread wear across the wheelbase, enhancing driving stability and handling performance.

Condition & Installation

- **Condition:** Factory-new
- **Installation Time:** 45 minutes to 2 hours per side (recommended: install one side at a time)
- **Required Tools:** Floor jack, WD-40 lubricant, standard mechanic's toolset

Key Features

Delivers OEM-grade performance at a fraction of the cost. The enamel-finished unit features a total base length of 3.72" and includes pre-installed bushing kits as depicted. Designed for both front and rear suspension applications.

Compatibility

Fits Club Car DS Gas (1997+) • Club Car DS Electric (1981+) • Club Car Precedent Gas/Electric (2004+) golf carts.
