Basic Information

Product Specification

- Battery Capacity: 72V150AH
- Applicable Garbage Can: Standard 240L*2/660L
- Engine: DAM16KLQ
- Capacity: 30 Cubic Yards
- Axle Load: 1300kg/2195kg
- Gross Vehicle Weight Rating: 66,000 Lbs
- Box Volume: 2.8m³
- Hydraulic Tailboard Load: 500kg
- Highlight: 1300kg axle load garbage pickup truck, 2195kg trash removal truck for 240L cans, versatile design garbage truck for 660L bins

Product Description

Product Description:

The Garbage Pickup Truck is an essential piece of equipment designed for efficient refuse disposal and junk hauling. With a sturdy build and powerful performance capabilities, this truck is ideal for handling various waste collection tasks in urban and suburban areas.

Released in 2020, this Rubbish Disposal Truck boasts a reliable Axle Load of 1300kg/2195kg, ensuring it can carry heavy loads of waste without compromising its stability or performance. Whether it's standard 240L*2 bins or larger 660L containers, this truck is equipped to handle different sizes of Applicable Garbage Cans with ease.

When it comes to speed, the Garbage Pickup Truck can reach a Top Speed of 25km/h, allowing operators to efficiently navigate through different neighborhoods and waste collection points. Despite its robust capabilities, the truck maintains a manageable Curb Weight of 1260kg, striking a balance between durability and agility on the road.

Equipped with modern features and a user-friendly design, this Refuse Disposal Truck is known for its reliability and efficiency in waste management operations. Its durable construction and advanced technology make it a valuable asset for waste management companies, municipalities, and sanitation departments.

Whether it's daily garbage collection routes or special cleanup projects, the Garbage Pickup Truck excels in handling a wide range of waste disposal tasks. Its versatility, performance, and durability make it a preferred choice for professionals in the waste management industry.

Features:

Product Name: Garbage Pickup Truck

Top Speed: 25km/h

Year Of Release: 2020

Box Volume: 2.8m³

Capacity: 30 Cubic Yards

Gross Vehicle Weight Rating: 66,000 Lbs

Technical Parameters:

Box Volume	2.8m ³
Year Of Release	2020
Applicable Garbage Can	Standard 240L*2/660L
Drive Motor	TZ180XSIN101
Gross Vehicle Weight Rating	66,000 Lbs
Battery Capacity	72V150AH
Engine	DAM16KLQ
Hydraulic Tailboard Load	500kg
Curb Weight	1260(Kg)
Axle Load	1300kg/2195kg

Applications:

A Garbage Pickup Truck, also known as a Rubbish Disposal Truck, Trash Removal Truck, or Junk Hauling Truck, is a specialized vehicle designed for the collection and transportation of waste materials. Released in 2020, this particular model boasts a Gross Vehicle Weight Rating of 66,000 Lbs, making it a heavy-duty option for waste management tasks.

One of the key applications for the Garbage Pickup Truck is in municipal waste collection services. Local governments and waste management companies can utilize these trucks to efficiently pick up trash from residential areas, commercial establishments, and public spaces. With its powerful engine model DAM16KLQ and drive motor TZ180XSIN101, this truck is capable of handling large volumes of waste while maintaining a top speed of 25km/h.

Another important scenario for the Garbage Pickup Truck is in construction sites and industrial facilities. These locations often generate significant amounts of waste materials that need to be regularly removed. The heavy-duty design of this truck allows it to handle construction debris, demolition waste, and other bulky items with ease.

Furthermore, the Garbage Pickup Truck is well-suited for use in events and festivals where large crowds gather. Event organizers can rely on this truck to manage the collection of waste generated during the event, ensuring a clean and hygienic environment for attendees. In addition to its primary applications, the Garbage Pickup Truck can also be used in rural areas for agricultural waste disposal and in specialized industries such as hazardous waste management. Its versatility and robust construction make it a valuable asset for various waste collection and disposal needs.

Customization:

Product Customization Services for the Trash Removal Truck:

Enhance your Sanitation Truck with the following customizable features:

- Hydraulic Tailboard Load: 500kg
- Box Volume: 2.8m³
- Year Of Release: 2020
- Axle Load: 1300kg/2195kg
- Top Speed: 25km/h

Customize your Refuse Disposal Truck to meet your specific needs today!

Support and Services:

Our Product Technical Support team for the Garbage Pickup Truck is dedicated to providing top-notch assistance with any issues or questions that may arise. Whether it's troubleshooting mechanical problems, addressing software issues, or guiding you through proper maintenance procedures, our team is here to help.

In addition to technical support, we also offer a range of services to ensure that your Garbage Pickup Truck operates smoothly and efficiently. These services may include regular maintenance checks, on-site repairs, and training programs for operators to optimize performance and extend the lifespan of the vehicle.
