Basic Information

Product Specification

- Box Volume: 2.8m³
- Hydraulic Tailboard Load: 500kg
- Capacity: 30 Cubic Yards
- Drive Motor: TZ180XSIN101
- Curb Weight: 1260(Kg)
- Applicable Garbage Can: Standard 240L*2/660L
- Engine: DAM16KLQ
- Battery Capacity: 72V150AH
- Highlight: 240L refuse disposal truck,
660L garbage pickup truck,
1300kg axle load refuse truck

Product Description:

A Garbage Pickup Truck, also known as a Sanitation Truck or Trash Removal Truck, is an essential vehicle designed for collecting and transporting waste materials efficiently. One of the key features of this specialized truck is its impressive Top Speed of 25km/h, allowing it to navigate urban areas and residential neighborhoods with ease.

The Garbage Pickup Truck is equipped with a powerful Engine model DAM16KLQ, ensuring reliable performance and durability for long hours of operation. This engine provides the necessary power to handle the demanding tasks of waste collection and disposal effectively. With a Gross Vehicle Weight Rating of 66,000 Lbs, this Trash Removal Truck is built to carry heavy loads of trash without compromising its stability or structural integrity. The robust design and construction of the truck make it suitable for handling various types of waste materials, making it a versatile and indispensable asset for sanitation departments and waste management companies.

One of the standout features of the Garbage Pickup Truck is its spacious Capacity of 30 Cubic Yards, allowing for efficient collection and transportation of large volumes of waste. This ample storage space enables the truck to complete multiple pickups without the need for frequent unloading, enhancing productivity and operational efficiency.

The Drive Motor of the Trash Removal Truck is a high-performance motor designated as TZ180XSIN101, delivering optimal power and torque for smooth acceleration and operation. This drive motor contributes to the overall performance and maneuverability of the truck, ensuring that it can navigate through different terrains and environments while maintaining its efficiency.

In conclusion, the Garbage Pickup Truck is a reliable and robust vehicle designed to meet the demanding requirements of waste collection and disposal. With its impressive Top Speed, powerful Engine, substantial Capacity, and efficient Drive Motor, this Sanitation Truck is a vital tool for maintaining cleanliness and sanitation in urban areas and communities. Whether used by municipal sanitation departments or private waste management companies, the Trash Removal Truck plays a crucial role in ensuring the effective and timely removal of waste materials, contributing to a cleaner and healthier environment for all.

Features:

Product Name: Garbage Pickup Truck -----

Hydraulic Tailboard Load: 500kg

Battery Capacity: 72V150AH

Drive Motor: TZ180XSIN101

Capacity: 30 Cubic Yards

Axle Load: 1300kg/2195kg

Technical Parameters:

Hydraulic Tailboard Load	500kg
Box Volume	2.8m³
Applicable Garbage Can	Standard 240L*2/660L
Year Of Release	2020
Top Speed	25km/h
Engine	DAM16KLQ
Gross Vehicle Weight Rating	66,000 Lbs
Drive Motor	TZ180XSIN101
Axle Load	1300kg/2195kg
Capacity	30 Cubic Yards

Applications:

A Garbage Pickup Truck, also known as a Litter Pickup Truck, Sanitation Truck, or Trash Removal Truck, is a specialized vehicle designed for collecting and transporting waste materials. The product attributes of this particular Garbage Pickup Truck model make it suitable for a variety of application occasions and scenarios.

With an engine model DAM16KLQ and a drive motor TZ180XSIN101, this truck is equipped with the power and performance needed to efficiently navigate through urban and suburban areas for garbage collection. Its Gross Vehicle Weight Rating of 66,000 Lbs ensures that it can handle heavy loads of waste materials while maintaining stability on the road.

The Hydraulic Tailboard Load capacity of 500kg allows for easy loading and unloading of garbage cans, making the collection process more efficient and convenient. This feature is particularly beneficial in areas with high volumes of waste that require frequent pickups.

Designed to accommodate Standard 240L*2 or 660L garbage cans, this Garbage Pickup Truck is versatile and can be used in residential neighborhoods, commercial areas, and industrial sites. It is ideal for municipal waste management services, private sanitation companies, and public works departments.

Applicable scenarios for this Garbage Pickup Truck include daily garbage collection routes in urban areas, special event waste management, construction site cleanup, and large-scale community clean-up projects. Its robust construction and reliable performance make it a valuable asset for any organization involved in waste collection and disposal.

Whether it is emptying trash bins along city streets, clearing debris from public parks, or collecting waste from residential areas, this Garbage Pickup Truck is a dependable and efficient solution for maintaining cleanliness and sanitation in various environments.

Customization:

Customize your Litter Pickup Truck with our Product Customization Services:

Axle Load: 1300kg/2195kg

Box Volume: 2.8m³

Top Speed: 25km/h

Gross Vehicle Weight Rating: 66,000 Lbs

Engine: DAM16KLQ

Enhance your Junk Hauling Truck or Rubbish Disposal Truck with these specifications.

Support and Services:

The Garbage Pickup Truck product comes with comprehensive Product Technical Support and Services to ensure smooth operation and maintenance. Our dedicated team is available to assist with any technical issues, troubleshooting, and product inquiries. Services may include regular maintenance checks, on-site repairs, and replacement of parts as needed. Our goal is to provide reliable support to keep your Garbage Pickup Truck functioning efficiently and effectively.

Packing and Shipping:

Product Packaging for Garbage Pickup Truck:

- The garbage pickup truck will be securely packaged in a cardboard box with protective foam inserts to prevent any damage during transit.

Shipping Information:

- Shipping method: Standard ground shipping

- Expected delivery time: 5-7 business days

- Shipping cost: Calculated at checkout based on destination

FAQ:

A: The Garbage Pickup Truck has a capacity of 10 cubic yards.

Q: Is the Garbage Pickup Truck suitable for residential use?

A: Yes, the Garbage Pickup Truck is designed for both residential and commercial use.

Q: Does the Garbage Pickup Truck come with a compactor feature?

A: Yes, the Garbage Pickup Truck is equipped with a built-in compactor for efficient waste compression.

Q: What type of waste materials can the Garbage Pickup Truck handle?

A: The Garbage Pickup Truck is capable of handling various types of waste materials, including household trash, recyclables, and yard waste.

Q: Can the Garbage Pickup Truck be operated by a single person?

A: Yes, the Garbage Pickup Truck is designed for single-operator use, making it convenient and easy to maneuver.
