Basic Information

Product Specification

- Gross Vehicle Weight Rating: 66,000 Lbs
- Hydraulic Tailboard Load: 500kg
- Top Speed: 25km/h
- Engine: DAM16KLQ
- Capacity: 30 Cubic Yards
- Drive Motor: TZ180XSIN101
- Axle Load: 1300kg/2195kg
- Applicable Garbage Can: Standard 240L*2/660L
- Highlight: Durable garbage pickup truck with DAM16KLQ engine, Garbage pickup truck 1260Kg curb weight, Garbage truck 25km/h top speed

Product Description

Product Description:

The Garbage Pickup Truck is a cutting-edge product specifically designed for efficient waste management and junk hauling operations. Released in 2020, this state-of-the-art Sanitation Truck is equipped with top-of-the-line features to streamline garbage collection and litter pickup tasks.

With a remarkable top speed of 25km/h, this Junk Hauling Truck ensures swift and timely trash collection in various urban and suburban settings. Its high-speed capability allows sanitation workers to cover large areas quickly, making it an ideal choice for municipalities and waste management companies.

One of the standout features of the Garbage Pickup Truck is its compatibility with a wide range of garbage cans. Whether it's standard 240L bins or larger 660L containers, this versatile vehicle can accommodate and transport them with ease. This flexibility in handling different types of garbage cans makes the truck a versatile asset in waste collection operations.

Powered by a robust 72V150AH battery, the Garbage Pickup Truck boasts impressive endurance and performance. The battery capacity ensures long hours of operation without the need for frequent recharging, enhancing the truck's productivity and efficiency during garbage collection runs.

Despite its powerful capabilities, the Garbage Pickup Truck is designed with a focus on sustainability and environmental responsibility. By utilizing electric power, the vehicle minimizes carbon emissions and reduces its ecological footprint, making it an eco-friendly choice for modern waste management practices.

With a Gross Vehicle Weight Rating of 66,000 lbs, this sturdy and reliable truck is built to handle heavy loads of waste materials without compromising on safety or performance. Its robust construction and durable components ensure long-term durability and operational reliability, making it a valuable investment for waste management organizations.

In conclusion, the Garbage Pickup Truck is a top-of-the-line sanitation vehicle that excels in junk hauling, litter pickup, and waste management tasks. Its advanced features, high-speed performance, and versatility in handling various garbage cans make it an indispensable asset for municipalities, sanitation departments, and waste collection services. With its eco-friendly design and efficient operation, this truck sets a new standard in modern waste management practices, offering a sustainable and effective solution for urban cleanliness and environmental protection.

Features:

Product Name: Garbage Pickup Truck

Drive Motor: TZ180XSIN101

Axle Load: 1300kg/2195kg

Gross Vehicle Weight Rating: 66,000 Lbs

Box Volume: 2.8m³

Capacity: 30 Cubic Yards

Technical Parameters:

Axle Load	1300kg/2195kg
Curb Weight	1260(Kg)
Box Volume	2.8m ³
Hydraulic Tailboard Load	500kg
Top Speed	25km/h
Engine	DAM16KLQ
Drive Motor	TZ180XSIN101
Gross Vehicle Weight Rating	66,000 Lbs
Capacity	30 Cubic Yards
Year Of Release	2020

Applications:

The Garbage Pickup Truck, also known as a Refuse Disposal Truck or Sanitation Truck, is a vital vehicle used for collecting and transporting waste materials from various locations. With its robust design and efficient features, this truck is suitable for a wide range of product application occasions and scenarios.

One key attribute of the Garbage Pickup Truck is its Hydraulic Tailboard Load capacity of 500kg. This feature allows for easy loading and unloading of heavy garbage cans, making it ideal for use in residential areas, commercial establishments, and public spaces.

Another important aspect of this truck is its Top Speed of 25km/h, which ensures quick and timely waste collection across different locations. Whether it's a busy urban street or a suburban neighborhood, the Garbage Pickup Truck can navigate through various terrains with ease.

The spacious Box Volume of 2.8m³ is another standout feature of this truck, providing ample storage space for collecting large quantities of waste. This makes it perfect for handling heavy-duty waste disposal tasks in industrial areas, construction sites, and municipal facilities. When it comes to the types of garbage cans it can accommodate, the Garbage Pickup Truck is designed to handle Standard 240L*2 or 660L bins. This versatility allows it to adapt to different waste management systems and requirements, making it a versatile choice for

sanitation departments and waste management companies.
With an Axle Load capacity of 1300kg/2195kg, the Garbage Pickup Truck is capable of carrying heavy loads while maintaining stability and efficiency. This makes it a reliable option for collecting and transporting waste materials over long distances, ensuring a smooth and reliable waste disposal process.

Customization:

Product Customization Services for the Garbage Pickup Truck: -----
Battery Capacity: 72V150AH
Capacity: 30 Cubic Yards
Axle Load: 1300kg/2195kg
Engine: DAM16KLQ
Curb Weight: 1260(Kg)
Customize your Refuse Disposal Truck, Litter Pickup Truck, or Rubbish Disposal Truck to meet your specific needs and requirements.

Support and Services:

Our Product Technical Support and Services team for the Garbage Pickup Truck is dedicated to providing assistance with any issues or questions you may have regarding the operation, maintenance, or troubleshooting of your vehicle.
We offer a range of services, including:
Technical troubleshooting and guidance
Regular maintenance checks and schedules
Parts replacement and repair services
Training programs for operators
Our team of experts is committed to ensuring that your Garbage Pickup Truck operates efficiently and effectively, minimizing downtime and maximizing productivity for your business.

Packing and Shipping:

Product: Garbage Pickup Truck -----
Description: A sturdy garbage pickup truck designed to efficiently collect waste materials.
Packaging: The garbage pickup truck will be securely packaged in a cardboard box with protective padding to prevent damage during transit.
Shipping: The product will be shipped via standard ground shipping and tracking information will be provided once the order is processed.

FAQ:

Q: What is the capacity of the Garbage Pickup Truck? -----
A: The Garbage Pickup Truck has a capacity of 10 cubic yards.
Q: How does the Garbage Pickup Truck handle different types of waste?
A: The Garbage Pickup Truck is equipped with separate compartments for recyclables and general waste, allowing for efficient sorting and disposal.
Q: Is the Garbage Pickup Truck suitable for residential use?
A: Yes, the Garbage Pickup Truck is designed for both residential and commercial use, making it versatile for various waste collection needs.
Q: What kind of safety features does the Garbage Pickup Truck have?
A: The Garbage Pickup Truck is equipped with rear-view cameras, emergency stop buttons, and automatic braking systems to ensure safe operation.
Q: Can the Garbage Pickup Truck handle heavy loads?
A: Yes, the Garbage Pickup Truck is designed to handle heavy loads efficiently, making it suitable for collecting large amounts of waste without compromising performance.
