Basic Information

Product Specification

- Top Speed: 25km/h
- Drive Motor: TZ180XSIN101
- Year Of Release: 2020
- Applicable Garbage Can: Standard 240L*2/660L
- Capacity: 30 Cubic Yards
- Gross Vehicle Weight Rating: 66,000 Lbs
- Curb Weight: 1260(Kg)
- Hydraulic Tailboard Load: 500kg
- Highlight: Garbage pickup truck with DAM16KLQ engine, 2.8m3 box volume garbage truck, 1260 kg curb weight garbage truck

Product Description

Product Description:

The Garbage Pickup Truck is a top-of-the-line Rubbish Disposal Truck that was released in 2020, designed to efficiently handle junk hauling and trash removal tasks with ease. This powerful truck boasts a generous capacity of 30 Cubic Yards, making it an ideal choice for both residential and commercial waste management needs.

Equipped with a reliable Drive Motor model TZ180XSIN101, the Garbage Pickup Truck ensures smooth and consistent performance during operations. The robust motor is designed to handle the demanding tasks of waste collection and disposal, providing the necessary power to tackle even the toughest jobs effectively.

When it comes to carrying heavy loads, the Garbage Pickup Truck excels with its impressive Axle Load of 1300kg/2195kg. This sturdy construction allows the truck to transport large volumes of waste without compromising on safety or efficiency. Whether it's bulky furniture, construction debris, or everyday household trash, this truck can handle it all with ease.

In terms of speed, the Garbage Pickup Truck offers a maximum velocity of 25km/h, ensuring that waste collection and disposal tasks are completed swiftly and efficiently. This speed capability enables the truck to move swiftly between job sites, maximizing productivity and reducing overall operational time.

The Garbage Pickup Truck is designed to be a dependable and versatile solution for waste management professionals, offering a combination of capacity, power, and speed to streamline rubbish disposal operations. Whether it's clearing out construction sites, hauling away household junk, or managing commercial waste, this truck is up to the task.

Features:

Product Name: Garbage Pickup Truck

Hydraulic Tailboard Load: 500kg

Top Speed: 25km/h

Year Of Release: 2020

Gross Vehicle Weight Rating: 66,000 Lbs

Box Volume: 2.8m³

Technical Parameters:

Top Speed	25 km/h
Capacity	30 Cubic Yards
Gross Vehicle Weight Rating	66,000 Lbs
Box Volume	2.8 m ³
Applicable Garbage Can	Standard 240L*2/660L
Drive Motor	TZ180XSIN101
Year Of Release	2020
Axle Load	1300 kg/2195 kg
Curb Weight	1260 (Kg)
Battery Capacity	72V150AH

Applications:

A Garbage Pickup Truck, also known as a Junk Hauling Truck or Sanitation Truck, is a specialized vehicle designed for collecting and transporting waste materials. With a top speed of 25km/h, a curb weight of 1260kg, and a battery capacity of 72V150AH, this truck is ideal for various product application occasions and scenarios.

- Urban Areas:** In densely populated urban areas, the Garbage Pickup Truck is essential for maintaining cleanliness and hygiene. It can navigate through narrow streets and crowded neighborhoods to collect household garbage efficiently.
- Residential Communities:** Within residential communities, this truck can be used for curbside pickup of trash and recyclables. Its compact design and maneuverability make it suitable for navigating residential streets and alleys.
- Commercial Establishments:** Businesses such as restaurants, hotels, and shopping malls can benefit from the Garbage Pickup Truck for managing their waste disposal needs. The truck's box volume of 2.8m³ allows for the collection of large quantities of trash from commercial establishments.
- Construction Sites:** Construction sites generate a significant amount of debris and waste materials. The Junk Hauling Truck can be used to transport construction waste, debris, and discarded materials from the site to a designated disposal area.
- Special Events:** During festivals, concerts, and other special events, the Sanitation Truck plays a crucial role in maintaining cleanliness and managing waste generated by large crowds. It can quickly clear trash and keep the event area clean.
- Municipal Waste Management:** Municipalities can use Garbage Pickup Trucks for routine garbage collection services. These trucks are equipped to handle different types of waste, including household trash, recyclables, and yard waste, contributing to a cleaner and healthier environment.

In conclusion, the Garbage Pickup Truck is a versatile and reliable vehicle that can be used in a variety of settings to facilitate waste collection and management. Its efficient design, optimal speed, and ample storage capacity make it a valuable asset for maintaining cleanliness and sanitation in diverse product application occasions and scenarios.
