Basic Information

Product Specification

- Battery Capacity: 72V150AH
- Curb Weight: 1260(Kg)
- Engine: DAM16KLQ
- Capacity: 30 Cubic Yards
- Drive Motor: TZ180XSIN101
- Box Volume: 2.8m³
- Gross Vehicle Weight Rating: 66,000 Lbs
- Year Of Release: 2020
- Highlight: 240L garbage pickup truck,
660L junk hauling truck,
25km/h garbage truck with warranty

Product Description

Product Description:

The Garbage Pickup Truck is an essential vehicle designed for efficient waste management and sanitation purposes. Also known as the Rubbish Disposal Truck or Litter Pickup Truck, this specialized vehicle plays a crucial role in maintaining cleanliness and hygiene in urban and rural areas.

Equipped with a powerful DAM16KLQ engine, this Garbage Pickup Truck delivers reliable performance to handle various types of waste materials effectively. The engine's robust design ensures optimal power output for consistent operation in challenging environments. One of the standout features of this sanitation truck is its Hydraulic Tailboard Load capacity of 500kg. This capability allows the vehicle to lift and transport heavy loads of garbage with ease, making the waste collection process more efficient and less labor-intensive.

Released in 2020, this modern Garbage Pickup Truck incorporates the latest technology and design advancements to meet the evolving needs of the waste management industry. Its innovative features and engineering make it a reliable and cost-effective solution for municipalities, waste management companies, and sanitation departments.

The Gross Vehicle Weight Rating (GVWR) of this Garbage Pickup Truck is an impressive 66,000 Lbs, highlighting its robust construction and load-bearing capacity. This rating indicates the maximum weight that the vehicle can safely carry, ensuring safe and efficient waste collection operations.

Despite its heavy-duty capabilities, the Garbage Pickup Truck offers a comfortable and controlled driving experience. With a top speed of 25km/h, the vehicle can navigate through urban streets and residential areas with ease, enabling efficient waste collection without compromising safety.

In conclusion, the Garbage Pickup Truck is a reliable and efficient solution for waste management and sanitation needs. Its powerful engine, high load capacity, modern design, and impressive GVWR make it an ideal choice for organizations and authorities looking to enhance their waste collection operations.

Features:

Product Name: Garbage Pickup Truck
Top Speed: 25km/h
Engine: DAM16KLQ
Drive Motor: TZ180XSIN101
Applicable Garbage Can: Standard 240L*2/660L
Box Volume: 2.8m³

Technical Parameters:

Year Of Release	2020
Gross Vehicle Weight Rating	66,000 Lbs
Hydraulic Tailboard Load	500kg
Capacity	30 Cubic Yards
Box Volume	2.8m ³
Battery Capacity	72V150AH
Engine	DAM16KLQ
Top Speed	25km/h
Drive Motor	TZ180XSIN101
Applicable Garbage Can	Standard 240L*2/660L

Applications:

A Garbage Pickup Truck, also known as a Litter Pickup Truck, Rubbish Disposal Truck, or Sanitation Truck, equipped with the engine DAM16KLQ, is a versatile vehicle designed for waste collection and disposal. With a robust axle load capacity of 1300kg/2195kg, this truck is suitable for handling various types of waste materials efficiently.

The Garbage Pickup Truck is ideal for use in a wide range of application occasions and scenarios. One common application scenario is municipal waste collection in urban areas. The truck's capacity to accommodate standard 240L*2/660L garbage cans makes it well-suited for regular household waste collection routes.

Furthermore, the drive motor TZ180XSIN101 ensures reliable performance and smooth operation, making the Garbage Pickup Truck a reliable choice for waste management tasks. The 2.8m³ box volume provides ample space for collecting and transporting waste materials, enhancing the truck's operational efficiency.

Another key application occasion for the Garbage Pickup Truck is commercial waste collection. Whether servicing businesses, industrial facilities, or commercial establishments, this truck's sturdy design and high axle load capacity make it a dependable option for handling large volumes of waste.

In addition, the Garbage Pickup Truck is well-suited for use in residential neighborhoods, parks, and public spaces where regular garbage pickup services are essential. Its versatility and adaptability to different waste collection needs make it a valuable asset for sanitation departments and waste management companies.

In conclusion, the Garbage Pickup Truck is a reliable and efficient vehicle designed for waste collection and disposal in various

application occasions and scenarios. With its durable construction, ample storage capacity, and powerful drive motor, this truck is a practical solution for maintaining cleanliness and sanitation in urban and suburban environments.

Customization:

- Customize your Trash Removal Truck with our Product Customization Services:
- Gross Vehicle Weight Rating: 66,000 Lbs
 - Curb Weight: 1260(Kg)
 - Top Speed: 25km/h
 - Engine: DAM16KLQ
 - Drive Motor: TZ180XSIN101

Support and Services:

- Our Product Technical Support and Services for the Garbage Pickup Truck include:
- 24/7 hotline for emergency technical assistance
 - On-site maintenance and repair services
 - Access to online resources and manuals for troubleshooting
 - Training programs for operators and maintenance staff

Packing and Shipping:

Product: Garbage Pickup Truck

Description: Our Garbage Pickup Truck is a durable and efficient solution for waste management.

Package Includes: Garbage Pickup Truck, User Manual

Shipping Details: This product will be carefully packaged and shipped within 1-2 business days after placing your order.

FAQ:

- Q: What is the capacity of the Garbage Pickup Truck?**
- A: The Garbage Pickup Truck has a capacity of 10 cubic yards.
- Q: How does the Garbage Pickup Truck handle different types of waste?**
- A: The Garbage Pickup Truck is equipped to handle both regular household waste and recyclables.
- Q: Is the Garbage Pickup Truck suitable for commercial use?**
- A: Yes, the Garbage Pickup Truck is designed for both residential and commercial use.
- Q: What kind of maintenance is required for the Garbage Pickup Truck?**
- A: Regular maintenance such as checking fluid levels, inspecting hydraulic systems, and cleaning the truck is recommended to ensure optimal performance.
- Q: Can the Garbage Pickup Truck be operated by a single person?**
- A: Yes, the Garbage Pickup Truck is designed to be operated by a single person, making it efficient for waste collection tasks.
