- Power System: 72V7.5KW AC Motor
- Type: Electric
- Top Speed: 25-30 Mph
- Brakes: Disc Brakes
- Additional Features: Roof, Doors, And Storage Compartments
- Battery: 72V200AH Deep-cycle
- Highlight: **10-12 passenger sightseeing bus, power steering sightseeing vehicle, vacation sightseeing bus with power steering**

Product Description

Product Description:

The Sightseeing Vehicle is a top-of-the-line electric transport designed for guided tour excursions, offering a luxurious and comfortable experience for passengers. With a spacious capacity to accommodate 10-12 passengers, this vehicle is perfect for group outings and scenic excursions.

Equipped with advanced disc brakes, the Sightseeing Vehicle ensures a safe and reliable journey for all passengers. The disc brakes provide responsive and effective stopping power, enhancing the overall driving experience and instilling confidence in both the driver and passengers.

Enhancing visibility and safety, the Sightseeing Vehicle features state-of-the-art LED headlights and taillights. These energy-efficient lights offer superior illumination, allowing for clear visibility during night tours or in low-light conditions. The LED lights not only improve safety but also add a modern and stylish touch to the vehicle's design.

Maneuvering through various terrains and tight spaces is made easy with the Sightseeing Vehicle's impressive turning radius of 20 feet. This tight turning radius allows for smooth and effortless navigation, making it ideal for navigating crowded streets, scenic routes, and other challenging environments.

Whether you are looking for a guided tour transport, a scenic excursion cruiser, or a vacation sightseeing bus, the Sightseeing Vehicle is the perfect choice. Its combination of electric power, spacious capacity, advanced braking system, superior lighting, and excellent maneuverability makes it a versatile and reliable option for various sightseeing and transportation needs.

Features:

Product Name: Sightseeing Vehicle

Lighting: LED Headlights And Taillights

Safety Features: Seatbelts, Emergency Brake, And Reverse Camera

Power System: 72V7.5KW AC Motor

Model: SKDG14-A

Turning Radius: 20 Feet

Technical Parameters:

Safety Features	Seatbelts, Emergency Brake, And Reverse Camera
Turning Radius	20 Feet
Power System	72V7.5KW AC Motor
Brakes	Disc Brakes
Seating Configuration	Forward-facing
Battery	72V200AH Deep-cycle
Wheelbase	120 Inches
Additional Features	Roof, Doors, And Storage Compartments
Top Speed	25-30 Mph
Steering	Power Steering

Applications:

Product Application Occasions and Scenarios for the Sightseeing Vehicle:

When it comes to versatile transportation solutions for tourist group shuttle services, the Sightseeing Vehicle stands out as a top choice. With its combination of innovative features and reliable performance, this vehicle is perfectly suited for a wide range of occasions and scenarios.

Lighting plays a crucial role in ensuring safety and visibility, and the Sightseeing Vehicle excels in this aspect with its LED headlights and taillights. Whether it's a daytime tour or a night-time excursion, the powerful lights provide clear illumination, enhancing the overall experience for passengers.

The power system of the sightseeing vehicle is equipped with a 72V 7.5KW AC motor, delivering efficient and smooth acceleration. This robust power system ensures a comfortable ride for passengers while maintaining environmental friendliness.

Enhancing the onboard entertainment experience, the Sightseeing Vehicle features Bluetooth speakers as part of its audio system.

Passengers can enjoy music or tour commentary through these speakers, adding an extra layer of enjoyment to the journey.

Safety is paramount, and the Sightseeing Vehicle is equipped with disc brakes that provide reliable stopping power, giving both passengers and drivers peace of mind during the journey. The advanced braking system ensures a smooth and controlled ride, even in challenging road conditions.

Steering is made effortless with the power steering feature of the Sightseeing Vehicle. This allows for easy maneuvering, especially in crowded tourist areas or narrow streets, making it ideal for tourist group shuttle services where precision and control are essential.

Whether it's a guided tour, a sightseeing excursion, or a tourist group shuttle service, the Sightseeing Vehicle is the perfect choice for various application occasions and scenarios. Its combination of advanced features, safety elements, and comfort amenities make it a reliable and versatile option for transporting passengers in a tourist-friendly environment.

Customization:

Product Customization Services for the Vacation Sightseeing Bus: -----
Turning Radius: 20 Feet
Model: SKDG14-A
Additional Features: Roof, Doors, And Storage Compartments
Safety Features: Seatbelts, Emergency Brake, And Reverse Camera
Audio System: Bluetooth Speakers

Support and Services:

Our Product Technical Support and Services for the Sightseeing Vehicle include: -----
- Troubleshooting assistance for any technical issues
- Repair and maintenance services to keep your vehicle running smoothly
- Training programs for operators to ensure safe and efficient usage
- Regular software updates and firmware upgrades to enhance vehicle performance

Packing and Shipping:

Product Packaging: -----
The Sightseeing Vehicle will be carefully packaged in a sturdy cardboard box with ample cushioning to protect it during transit. The box will be labeled with the product name and fragile stickers to ensure safe handling.
Shipping:
Our standard shipping method for the Sightseeing Vehicle is through reputable courier services. Once your order is processed, you will receive a tracking number to monitor the shipment. Delivery times may vary depending on your location, but we strive to get your product to you as quickly as possible.
