Product Description

Product Description:

The Sightseeing Vehicle is a versatile and reliable Scenic Excursion Cruiser designed for transporting tourist groups in comfort and style. With a seating configuration of forward-facing seats, this vehicle ensures a smooth and enjoyable ride for passengers during guided tours and sightseeing excursions.

Equipped with power steering, the Sightseeing Vehicle offers easy maneuverability and precise control, making it an ideal choice for navigating through various landscapes and terrains. The power steering system enhances the driving experience for operators, allowing for smooth turns and effortless handling.

Measuring a wheelbase of 120 inches, this Tourist Group Shuttle provides a stable and balanced platform for transporting passengers safely. The extended wheelbase contributes to the vehicle's stability and enhances its overall performance, ensuring a comfortable and secure ride for passengers throughout the journey.

For an enhanced audio experience, the Sightseeing Vehicle comes equipped with Bluetooth speakers, allowing operators to play informative commentary, music, or other audio content during guided tours. The integrated audio system provides passengers with an immersive and engaging experience, adding an extra layer of enjoyment to the scenic excursions.

Powered by a 72V200AH deep-cycle battery, this Guided Tour Transport vehicle offers reliable and efficient performance, ensuring long-lasting power for extended tours and excursions. The deep-cycle battery provides sufficient energy to drive the vehicle over extended distances, making it a dependable choice for operators looking to offer memorable and uninterrupted tours to their passengers.

Features:

Adventure Sightseeing Transporter

Vacation Sightseeing Bus

Scenic Excursion Cruiser

Product Name: Sightseeing Vehicle

Model: SKDG14-A

Additional Features: Roof, Doors, And Storage Compartments

Wheelbase: 120 Inches

Battery: 72V200AH Deep-cycle

Power System: 72V7.5KW AC Motor

Technical Parameters:

Safety Features	Seatbelts, Emergency Brake, And Reverse Camera
Additional Features	Roof, Doors, And Storage Compartments
Wheelbase	120 Inches
Brakes	Disc Brakes
Model	SKDG14-A
Audio System	Bluetooth Speakers
Seating Configuration	Forward-facing
Turning Radius	20 Feet
Power System	72V7.5KW AC Motor
Battery	72V200AH Deep-cycle

Applications:

Product Application Occasions and Scenarios for the Sightseeing Vehicle:

When it comes to the Sightseeing Vehicle with a wheelbase of 120 inches and additional features like a roof, doors, and storage compartments, the product is ideal for various occasions and scenarios catering to tourist group shuttle services and adventure sightseeing transporter needs.

1. **Tourist Group Shuttle:** The Sightseeing Vehicle is perfectly suited for providing efficient and comfortable transportation for tourist groups in various settings. Whether it's exploring a bustling city, touring scenic countryside, or visiting cultural landmarks, this vehicle ensures a smooth and enjoyable travel experience for passengers.

2. **Adventure Sightseeing Transporter:** With its robust power system consisting of a 72V 7.5KW AC motor and power steering capabilities, the Sightseeing Vehicle is a reliable choice for adventure sightseeing tours. From rugged terrains to off-road trails, this vehicle can navigate diverse landscapes with ease, making it an excellent option for adventure enthusiasts seeking an adrenaline-filled journey.

Additionally, the inclusion of Bluetooth speakers in the audio system adds an entertainment element to the sightseeing experience, allowing passengers to enjoy their favorite music or commentary during the tour.

In conclusion, the Sightseeing Vehicle's versatile design and features make it a versatile option for a range of product application occasions and scenarios, particularly excelling in serving as a tourist group shuttle and adventure sightseeing transporter.
