Basic Information

Product Specification

- Features: GPS Tracking System
- Motor Power: 72V 7.5kw
- Type: Collection Truck
- Maximum Load: 1200kg
- Collection Method: Automatic
- Car Volume: 6-8 Barrels (240L/barrel)
- Cruising Range: 80km
- Compaction Ratio: 1:3
- Highlight: **2-passenger garbage collection truck, waste management truck with GPS, garbage sorting truck with tracking**

Product Description

Product Description:

The Waste Sorting Pickup Truck is an innovative and efficient solution for waste management, designed to streamline the collection and sorting process. This Garbage Sorting Collection Vehicle boasts a maximum load capacity of 1200kg, making it ideal for handling large volumes of waste materials.

With overall dimensions measuring 4450*1520*1970mm, this Collection Truck is compact yet spacious enough to accommodate 6-8 barrels of waste, with each barrel having a capacity of 240L. This ample car volume allows for efficient collection and transportation of various types of waste materials.

Equipped with a powerful 72V 7.5kw motor, this Garbage Sorting Collection Vehicle offers reliable performance and smooth operation. The motor power ensures that the truck can handle heavy loads and navigate through different terrains with ease, making it suitable for various waste collection environments.

Whether used for municipal waste collection, recycling programs, or commercial waste management, this Garbage Sorting Collection Vehicle is a versatile and practical solution. Its sturdy construction, efficient design, and high load capacity make it a valuable asset for waste management companies and organizations.

In addition to its impressive technical specifications, the Waste Sorting Pickup Truck is also designed with user convenience and safety in mind. The vehicle features ergonomic controls, comfortable seating for the driver, and ample storage space for tools and equipment.

Overall, this Garbage Sorting Collection Vehicle is a reliable and efficient solution for waste collection and sorting tasks. Its robust construction, high load capacity, and user-friendly design make it a valuable asset for waste management operations of all sizes.

Features:

Product Name: Garbage Sorting Collection Truck

Features: GPS Tracking System

Sorting Method: Mechanical

Maximum Load: 1200kg

Rated Passenger Capacity: 2

Collection Method: Automatic

Technical Parameters:

Maximum Load	1200kg
Capacity	10 Cubic Meters
Rated Passenger Capacity	2
Sorting Method	Mechanical
Cruising Range	80km
Overall Dimensions	4450*1520*1970mm
Type	Collection Truck
Compaction Ratio	1:3
Motor Power	72V 7.5kw
Max Speed	60 Km/h

Applications:

The Waste sorting pickup truck, also known as a Garbage sorting collection vehicle, is a specialized collection truck for sorting garbage efficiently in various scenarios. With a maximum speed of 60 Km/h, this collection truck is suitable for urban and suburban areas where quick and efficient waste collection is essential.

Thanks to its automatic collection method, the Garbage sorting collection truck can easily navigate through crowded streets and residential areas to pick up different types of waste. The automatic collection system streamlines the process, making it ideal for busy city environments.

One of the key features of this collection truck is the GPS Tracking System, which allows for real-time monitoring of the truck's location and route. This feature is particularly useful for optimizing collection routes and ensuring timely pickups, making it a valuable asset for waste management companies and municipalities.

Moreover, the Garbage sorting collection truck boasts a Compaction Ratio of 1:3, enabling it to compact and store a larger volume of waste efficiently. This feature helps reduce the frequency of trips to disposal sites, ultimately saving time and resources for waste collection operations.

With overall dimensions of 4450*1520*1970mm, the Garbage sorting collection truck is compact enough to maneuver through narrow streets and alleys while still offering ample storage capacity for different types of waste materials.

In conclusion, the Waste sorting pickup truck is a versatile and efficient solution for waste collection in diverse urban and suburban settings. Its automatic collection method, GPS tracking system, high compaction ratio, and compact dimensions make it well-suited for various waste management applications, ranging from residential neighborhoods to commercial districts.

Customization:

Product Customization Services for the Recycling truck for garbage sorting:
Customize your Collection truck for sorting garbage with the following attributes:
Maximum Load: 1200kg
Cruising Range: 80km
Rated Passenger Capacity: 2
Collection Method: Automatic
Overall Dimensions: 4450*1520*1970mm
Enhance your Refuse segregation collection truck to meet your specific needs.

Support and Services:

The Product Technical Support and Services for the Garbage Sorting Collection Truck include:

- Maintenance and repair services to ensure the truck operates efficiently
- Troubleshooting assistance for any technical issues that may arise
- Training programs for operators to maximize the truck's performance
- Regular software updates to improve functionality and address any bugs

Packing and Shipping:

Product Packaging:

The Garbage Sorting Collection Truck comes securely packaged in a durable cardboard box to ensure safe delivery.

Shipping:

We offer fast and reliable shipping services for the Garbage Sorting Collection Truck. Your order will be carefully packed and dispatched within 1-2 business days. Delivery times may vary depending on your location.

FAQ:

Q: How does the Garbage Sorting Collection Truck help with recycling efforts?

A: The Garbage Sorting Collection Truck features multiple compartments to easily separate recyclable materials from general waste, promoting efficient recycling practices.

Q: Is the Garbage Sorting Collection Truck suitable for both indoor and outdoor use?

A: Yes, the Garbage Sorting Collection Truck is designed to be used both indoors and outdoors, making it versatile for various waste collection needs.

Q: What is the capacity of the Garbage Sorting Collection Truck?

A: The Garbage Sorting Collection Truck has a large capacity of [insert capacity here] liters, allowing for efficient collection of waste without frequent emptying.

Q: How durable is the Garbage Sorting Collection Truck?

A: The Garbage Sorting Collection Truck is made of high-quality materials that ensure durability and longevity, making it suitable for heavy-duty use.

Q: Can the Garbage Sorting Collection Truck be customized with additional features?

A: Yes, the Garbage Sorting Collection Truck can be customized with additional features such as GPS tracking, RFID technology, or custom branding to meet specific requirements.
