Basic Information

Product Specification

- Car Volume: 6-8 Barrels (240L/barrel)
- Power Source: Diesel
- Cruising Range: 80km
- Maximum Load: 1200kg
- Max Speed: 60 Km/h
- Capacity: 10 Cubic Meters
- Motor Power: 72V 7.5kw
- Rated Passenger Capacity: 2
- Highlight: 80km range waste sorting truck,
mechanical waste sorting pickup truck,
garbage disposal collection truck with warranty

Product Description

Product Description:

The Garbage Sorting Collection Truck is a state-of-the-art waste management solution designed to streamline the process of collecting and sorting garbage effectively. This innovative vehicle is equipped with a powerful Motor Power of 72V 7.5kw, ensuring efficient performance and reliability during operation.

With an impressive Cruising Range of 80km, this Garbage Sorting Collection Truck is ideal for covering large areas without the need for frequent recharging. Whether used in urban or suburban settings, this vehicle offers exceptional mobility and range, making it a versatile choice for waste management tasks.

One of the standout features of this Garbage Sorting Collection Truck is its Sorting Method, which utilizes a Mechanical system to separate different types of waste effectively. This ensures that recyclable materials, organic waste, and general trash are sorted efficiently, promoting eco-friendly practices and reducing environmental impact.

In addition, the Collection Method of this waste sorting pickup truck is Automatic, enabling operators to collect garbage with ease and convenience. The automated collection process enhances efficiency and minimizes manual labor, making waste management tasks more time-effective and productive.

Equipped with a spacious Capacity of 10 Cubic Meters, the Garbage Sorting Collection Truck offers ample storage for collecting various types of waste. This generous capacity reduces the frequency of trips to disposal sites, optimizing operational efficiency and reducing overall costs.

Overall, the Garbage Sorting Collection Truck is a reliable and innovative solution for waste management needs. Combining advanced technology with practical features, this garbage sorting collection vehicle is designed to enhance productivity, promote sustainability, and streamline the waste collection process. With its powerful motor, impressive cruising range, efficient sorting and collection methods, and generous capacity, this vehicle is the ideal choice for organizations and municipalities seeking a comprehensive waste management solution.

Features:

Product Name: Garbage Sorting Collection Truck
Power Source: Diesel
Car Volume: 6-8 Barrels (240L/barrel)
Collection Method: Automatic
Cruising Range: 80km
Maximum Load: 1200kg

Technical Parameters:

Collection Method	Automatic
Features	GPS Tracking System
Type	Collection Truck
Rated Passenger Capacity	2
Max Speed	60 Km/h
Power Source	Diesel
Capacity	10 Cubic Meters
Cruising Range	80km
Car Volume	6-8 Barrels (240L/barrel)
Maximum Load	1200kg

Applications:

A Garbage Sorting Collection Truck is a versatile vehicle designed to support waste management processes by enabling efficient garbage collection and segregation. With a maximum load capacity of 1200kg, this Collection Truck is ideal for transporting various types of waste materials to designated recycling centers or landfills.

The 72V 7.5kw motor power ensures that the truck can operate smoothly and handle the demands of its intended use. As a dedicated Collection Truck, it is specifically tailored for tasks related to waste collection and sorting.

This Recycling truck for garbage sorting is equipped to handle 6-8 barrels, with each barrel having a capacity of 240L. This ample Car Volume allows for the collection of a significant amount of waste before requiring unloading.

In addition to its impressive load capacity, the Garbage Sorting Collection Truck also offers a rated passenger capacity of 2 individuals. This feature ensures that the necessary personnel can accompany the vehicle during its collection routes.

The Refuse segregation collection truck is suitable for a variety of application occasions and scenarios, including municipal waste collection, industrial waste management, and commercial waste disposal. Its efficient design and robust capabilities make it an indispensable asset for waste management companies, municipalities, and recycling facilities.

Whether deployed in urban areas, industrial zones, or residential neighborhoods, this Garbage Sorting Collection Truck excels in facilitating the proper segregation and disposal of waste materials. Its reliability, capacity, and functionality make it a valuable resource for promoting sustainable waste management practices.

Customization:

Product Customization Services for the Garbage Sorting Collection Truck:
Motor Power: 72V 7.5kw
Sorting Method: Mechanical
Power Source: Diesel
Features: GPS Tracking System
Rated Passenger Capacity: 2

Support and Services:

The Product Technical Support and Services for the Garbage Sorting Collection Truck include:
- Assistance with installation and setup of the sorting mechanism
- Troubleshooting of any technical issues related to the truck's sorting capabilities
- Regular maintenance services to ensure optimal performance
- Training sessions for operators on how to effectively use the sorting features
- Access to online resources and manuals for reference

Packing and Shipping:

Product Name: Garbage Sorting Collection Truck
Description: The Garbage Sorting Collection Truck is a durable and efficient vehicle designed for collecting and sorting different types of waste.
Features:
Large capacity for collecting various types of waste
Easy-to-use sorting system
Durable construction for long-lasting use
Package Includes:
1 Garbage Sorting Collection Truck
Instruction Manual
Shipping Information:
Shipping Method: Standard Shipping
Shipping Time: 5-7 business days
Shipping Cost: \$X.XX

FAQ:

Q: What is the capacity of the Garbage Sorting Collection Truck?
A: The Garbage Sorting Collection Truck has a capacity of 10 cubic meters.
Q: Can the Garbage Sorting Collection Truck separate different types of waste?
A: Yes, the truck is equipped with sorting compartments to separate recyclables, organic waste, and general waste.
Q: How does the Garbage Sorting Collection Truck operate?
A: The truck is operated by a single driver who controls the collection and sorting mechanisms from the driver's cabin.
Q: Is the Garbage Sorting Collection Truck environmentally friendly?
A: Yes, the truck is designed to reduce waste contamination and promote recycling, making it an eco-friendly choice for waste management.
Q: What safety features does the Garbage Sorting Collection Truck have?
A: The truck is equipped with safety sensors, cameras, and alarms to ensure safe operation and prevent accidents during waste collection and sorting processes.
